

# ARx ACCESSORY™

ACIDIFIER + MSO + NIS + DEPOSITION

## PRODUCT INFORMATION:

**ARx Accessory** is a convenient three-way combination adjuvant for use with glyphosate and oil-loving herbicides. The product improves uptake and leaf penetration. This product is an ideal partner for soybean grass herbicides, PPO herbicides, corn HPPD herbicides, or any oil-loving herbicide.

## DIRECTIONS FOR USE:

Consult an agronomy professional or pesticide application label for specific use rate and application instructions.\* *Always read the herbicide label and product websites for most up-to-date approval of tank mix adjuvants.*

## USE RATE:

3-4 quarts/100 gallons for ground applications. Refer to label for use as a buffer or for aerial applications. Mixing: If this product is being used to condition hard water, it must be added at the beginning of spray mixture. Otherwise, oil adjuvants are normally added after all main ingredients of the spray mixture.

## \*SPECIAL USE NOTES:

*This product or any acidifier plus adjuvant product is not recommended for use with dicamba herbicides over-the-top in the dicamba-tolerant soybean system. The acidification effect of these adjuvants is counter-intuitive to the requirement for pH buffering with the mandatory Volatility Reducing Agents (VRA).*

The logo features the letters 'ARX' in a stylized green font with a leaf-like shape behind the 'A', followed by the word 'ACCESSORY' in a bold purple font with a trademark symbol.

**Convenient:** A convenient three-way combo with low use rate

**Leaf Penetration:** ARx Accessory enhances performance of oil-loving herbicides

**Water Conditioning:** Acidifying water conditioner reduces hard water antagonism of glyphosate

**Deposition:** Surfactant improves spreading on the leaf surface

**Compatible:** Can be used with a wide range of tank mixtures

**Improved Handling:** Low foaming formulation

Component	Analysis
Specific gravity	.88
Density / Weight per gallon	7.8 lbs/gal
Volume/Ton	N/A
pH	2.9
Appearance	clear yellow liquid
Storage	10 deg F

# ACCESSORY™

Methylated Seed Oil  
+ Water Conditioner  
+ Surfactant

### Principal Functioning Agents:

Methylated seed oil and proprietary blend of water conditioners and nonionic surfactants .....100%  
All ingredients are exempt from tolerance in 40 CFR 180.

### KEEP OUT OF REACH OF CHILDREN WARNING

Causes skin irritation and serious eye damage.  
May be harmful if swallowed or inhaled.

### READ ENTIRE LABEL BEFORE USING PRECAUTIONARY STATEMENTS

Wear protective clothing, protecting gloves, and eye and/or face protection. Wash hands, face, and other affected areas thoroughly after handling. Do not eat, drink, or smoke while using this product. If eye or skin irritation occurs, seek medical attention.

### PERSONAL PROTECTIVE EQUIPMENT (PPE):

Wear eye protection, face protection, protective gloves and protective clothing.

### FIRST AID

### CALL A POISON CONTROL CENTER OR DOCTOR IF YOU FEEL UNWELL

**If Swallowed:** Call a POISON CENTER or doctor immediately for treatment advice if you feel unwell. Have the person rinse mouth and sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**If In Eyes:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice.

**If On Skin:** Call a POISON CENTER or doctor immediately for treatment advice if you feel unwell.

Wash with plenty of water. If skin irritation occurs: Get medical advice.

**If On Clothing:** Take off contaminated clothing and wash it before reuse.

**If inhaled:** Call a POISON CENTER or doctor immediately for treatment advice if you feel unwell. Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth, if possible.

**Additional Information:** Have the product container or label with you when calling a poison control center, or doctor, or going in for treatment. **In case of medical emergency, call toll free 1-877-424-7452.**

### GENERAL INFORMATION

**ARx ACCESSORY™** adjuvant is a convenient three-way combination of methylated seed oil (MSO), acidifying water conditioner, and nonionic surfactant. **ACCESSORY™** can enhance weed control by lowering and buffering pH at about 4.5 to manage hard water antagonism. The MSO promotes deposition and leaf penetration, and the nonionic surfactant can improve spreading.

### ENVIRONMENTAL HAZARDS

Not for aquatic use in California or Washington states. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high-water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

### DIRECTIONS FOR USE

#### SHAKE WELL BEFORE USING

Prior to use, read and follow all directions on this label and on the label of the pesticide being used. The pesticide manufacturer's label for specific usages, rates and restrictions have precedence over DIRECTIONS FOR USE referred to on this label.

**MIXING:** Fill spray tank half full with water and start agitation. Always add **ACCESSORY™** first with the agitator running. Then add pesticides and continue to fill spray tank.

**NOTE: ACCESSORY™** is an acidifier and may be physically or chemically incompatible with alkaline spray materials. Tank mixes of fertilizers and pesticides may result in reduced effectiveness of the pesticide due to the tendency of the pesticide to hydrolyze in alkaline solutions above pH 7. Acidifying the solution to lower pH will reduce hydrolysis. The rate needed depends on the alkalinity of the solution, and the specific tank mixture. If you don't know the starting pH of the solution, use an indicator such as litmus paper or a pH meter to determine the alkalinity of the solution before and after the addition of **ACCESSORY™**.

### RECOMMENDED USE RATES:

#### Ground Applications, pH Adjustment, and

**Buffering:** Use 0.5 - 1.0% v/v.

Water Hardness (ppm or mg/L of calcium carbonate)	<b>ACCESSORY™</b> per 100 gallons of water
0 — 150 mg/L	4 pints
150+ mg/L	8 pints

**Aerial Applications:** 6 to 8 fluid ounces per acre at up to 5 GPA. Do not use below 1.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment.

**STORAGE:** Store in a cool, dry place. Keep containers tightly closed. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Keep away from food, feed, or other products, especially oxidizing agents, to prevent contamination. Storage above freezing is recommended. If product freezes, warm and agitate (recirculate) prior to use.

**DISPOSAL:** Do not reuse empty containers. Triple rinse (or equivalent). Do not reuse container. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit [www.agrecycling.org](http://www.agrecycling.org). Dispose of contents/ container in accordance with local/national regulations.

**FOR CHEMICAL EMERGENCY: Spill, leak, fire, exposure, or accident, call CHEMTREC 1-800-424-9300.**

### Notice of Warranty

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. SELLER MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR IS ANY REPRESENTATIVE OF SELLER AUTHORIZED TO MAKE ANY SUCH WARRANTY OR MODIFY THESE TERMS. This warranty does not extend to the storage, handling or use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such storage, handling or use. Seller shall not be responsible for incidental or consequential damages, if any, resulting from a breach of warranty. All other trademarks are the property of their respective owners.
